

## US-China Clean Truck & Bus Summit 2012 *Building Partnerships for Clean Energy Vehicles*

*October 30- November 1, 2012, Beijing, China*

The **US-China Clean Truck and Bus Summit 2012** is a first of its kind event, focused on bringing together a **select, exclusive** group of US and Chinese leaders in a growing market: advanced new energy technologies for commercial medium and heavy-duty trucks and buses.

The **two-day Summit** (with an optional third day for technology tours) provides an exclusive opportunity to US and Chinese attendees and sponsors to expand business opportunities. This Summit is a **small, targeted, interactive event where select high-level industry stakeholders and policymakers will explore opportunities for business partnerships** around advanced technologies in China's truck and bus sector.

Attendees will better understand the market opportunity and challenges, the energy and business benefits of new energy commercial vehicles, and connect with leading technology providers and purchasers to begin forging mutually beneficial technology and business partnerships.

The **agenda** for this unique, action-oriented Summit includes:

- **China's Interest in New Energy Vehicles** – an Update on the Need, Emerging Requirements, and the Opportunity
- **China's Truck and Bus Market** – an Overview of Market Size and Shape, Trends, and Distinguishing Characteristics
- **China's Technology Solutions and Interests** – Spotlight on Chinese Industry OEMs and Suppliers, Technologies, and Needs/Interests in this Sector
- **U.S. Technology Solutions and Interests** – Spotlight on U.S. Industry OEMs and Suppliers, Technologies, and Needs/Interests in this Sector
- **Doing Business in China** – Discussion of Partnership Structure, Local Content Requirements, and other Key Issues
- **Early Experiences with Advanced Trucks and Buses in China** – Spotlight on Pilot Programs and Success in China, as well as Lessons Learned from Abroad

Additionally, the event will feature **targeted Partnership Building and Networking Sessions** where company representatives can meet, learn capabilities, and discuss technology and business interests in a small and interactive environment.

For more information about the Summit, how you can be involved and sponsorship opportunities, contact Susan Romeo ([sromeo@calstart.org](mailto:sromeo@calstart.org)). For more information on the US-China Clean Truck and Bus Forum program, please contact Jamie Hall ([jhall@calstart.org](mailto:jhall@calstart.org)).\*
